Gallery Information

The Laleh June Galerie was founded by Laleh June in 2008. The gallery is located in the center of Basel City, in one of the most historical places, in Picassoplatz, between Rhine and the historic old town, steps away from the Kunstmuseum Basel. The central concern when establishing the programme was to create a white space for Swiss and international contemporary art in Basel City. Laleh June Galerie was set up to promote, represent and invite artists to Laleh June Basel. Since its inception, the gallery mounted exhibitions of work by Swiss and international artists work painting, drawing, photograph, sculpture, video, installation, sound installation, performance, new media and new technology.
