Gallery Information

Mayoral, founded in 1989, is a gallery specialised in modern and post-war art, and centred mainly in the city of Barcelona during the period 1930-1969.

Miró, Dalí and Picasso are the main artists mostly represented by the Mayoral gallery, which, at the same time, also defend and promotes the founders and members of the artistic group «Dau al Set»: Ponç, Brossa and Tàpies, as well as other great artists related to Barcelona, such as: Calder, Chagall and Chillida.

Our goal is to highlight the work of these fundamental artists. For this reason, in 2014, we opened our second art space, a building of 2.800 sq. m in Verdú, a town in the province of Lleida. Our aim is to develop a wider artistic and curatorial project with lines of investigation focused on rediscovering our country's artists.

In both art spaces we stage curated exhibitions, organized in collaboration with the foundations, associations and families of the artists, who work to safeguard their legacies.
