Gallery Information

Bert van Zetten, Marcel and Jutta Huisman founded Villa del Arte Galleries in Barcelona in 1999. Their combined commitment, and passion for art, together with a unique approach and willingness to exhibit some lesser-known artists has contributed to an ever-changing contemporary collection of a consistently high standard.

Over time Villa del Arte has developed into one of Catalonia's leading contemporary art galleries. The gallery represents over 30 national and international, established and emerging painters, photographers and sculptors. In addition, in 2014 we opened a new gallery in Amsterdam which has enabled us to hold collective and solo exhibitions as well as providing Villa del Arte with greater capabilities to showcase new talent. With this new space our international presence in the art scene has grown noticeably providing new opportunities and projects that we are already working on.

Jean-François Rauzier, Orangerie, Edition of 8, 2011
